

# Helping Dental Service Organizations Account for Anything®

Growing a dental group means more locations, more entities, and more numbers to reconcile. Aprio brings tax, accounting, technology advisory, and owner planning together under one team, so you see every location clearly and make the decisions that move the group forward.

## How we support growing dental groups

### Reporting & technology

See every location in real time, on one platform.

- Real-time KPIs
- Systems integration
- Single sign-in
- Cash flow forecasting

### Structure & tax strategy

Build a structure that still works at 10+ locations.

- Entity structuring
- Multi-state tax
- Year-round planning
- Section 179

### Growth & transactions

Test the deal before you sign it.

- Valuation
- Quality of earnings
- Buy-side diligence
- Associate buy-ins

### Owner & wealth planning

Grow the group without concentrating all your wealth in it.

- Retirement plan design
- Investment advisory
- Succession and estate planning
- Personal tax and wealth

## Why Clients Choose Aprio

### INTEGRATED:

Systems designed to work together as you add locations, not bolted on.

### TECHNOLOGY READY:

We implement and train on your accounting platform as a preferred Intuit implementation partner.

### EARLY GUIDANCE:

Structure questions addressed before growth makes them costly.

## Industry Experience

Our team has decades of experience with multi-state Dental Service Organizations (DSOs), small and emerging DSOs, multi-location and multi-owner dental practices, dental practice startups, associate-to-owner and first-time practice owners, and dental practice management companies.

Every location you add changes your financial picture. Let's make sure it is a picture you can see. Contact Aprio's experienced dental team to start the conversation.
