

# ESOP Services

**AN EMPLOYEE STOCK OWNERSHIP PLAN CAN BECOME A VITAL COMPONENT OF YOUR SUCCESSION PLAN. LET APRIO HELP YOU MAXIMIZE ITS VALUE.**

An Employee Stock Ownership Plan (ESOP) is a defined contribution plan that is operated through a plan trust and governed by the Employee Retirement Income Security Act (ERISA).

ESOPs offer business owners a tax advantaged succession planning vehicle, that provides flexible options for selling a portion or all of a business while preserving the legacy of the company, its employees and exiting owners. Founders and main shareholders can sell back all of their shares at once, or percentages of their shares over time to the ESOP. This facilitates more control over exit payouts and the transition of leadership consistent with the owner's wishes.

## ESOPs are most commonly implemented to:

- Provide attractive after-tax cash flow for departing owners of closely-held companies
- Create substantial long-term incentives and rewards for management and employees
- Give owners the flexibility to gradually transition ownership over a period of time and thus remain actively involved in the business
