

Retail, Franchise and Hospitality Services

## Evolving Your Growth Ecosystem

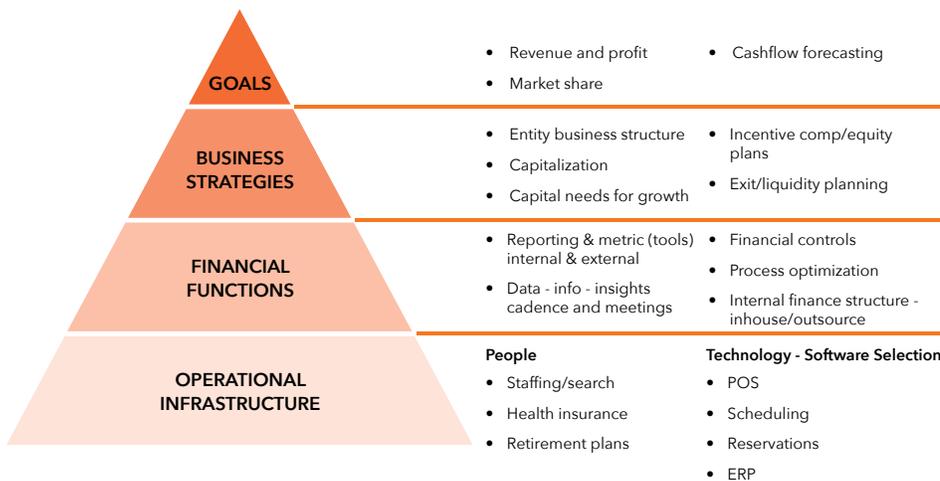

### BUILD THE RIGHT FOUNDATION, SYSTEMS AND RESOURCES TO STREAMLINE MANAGEMENT AND FACILITATE GROWTH WITH APRIO.

Growing a successful retail or restaurant operation in today's competitive marketplace comes with a formidable list of challenges. But chasing money and fumbling with accounting data don't need to be on that list. The stressors associated with financial reporting, forecasting, tax planning and prep can be significantly diminished by having the right foundation of systems, processes and providers working in synchronicity. The accumulative effect of having this foundation can have a transformative impact on your quality of life and the achievement of your goals.

Aprio's Retail, Franchise and Hospitality Group works closely with owner/operators, franchisees and franchisors to help them assemble the right mix of people, processes and technology providers. We can help you coordinate these resources to streamline operations and gain the financial insights and advice you need to make better, faster business decisions.

#### Building your foundation

Your foundation begins with your business goals. Aprio's Retail, Franchise and Hospitality team works closely with you to help identify gaps in operations and recommend the resources to establish a strong foundation.

#### Business strategies and goals

Through our proprietary CEO Tools business system, we provide you a proven framework and the guidance to develop and communicate strategies, execute objectives and optimize performance to successfully meet your goals.

#### Financial infrastructure

As your business grows and matures the systems, processes and controls that support it must also mature. What can scale and what needs to be upgraded? From inventory controls to reporting tools and payroll, we help you analyze, source, build and manage solutions to support profitable growth.

## Operational resources consulting

Will you have the right people and systems in place at the right time to support your business' functional requirements as you grow? What can be replicated and what adjustments to operational systems and your mix of inhouse and outsourced resources need to be made to efficiently deliver the data to manage and monitor daily business operations?

## Grow with our curated network of providers

At Aprio we take our advisory services well beyond business consulting, tax planning and audit to provide you with the strategic resources you want to achieve your goals. As a top 100 CPA-led business advisory firm, we have developed close relationships with a vetted network of respected service providers that can help you evolve your growth ecosystem.

## About Aprio

Since 1952, clients throughout the U.S. and across more than 40 countries have trusted Aprio for guidance on how to achieve what's next. As a premier, CPA-led professional services firm, Aprio delivers advisory, assurance, tax and private client services to build value, drive growth, manage risk and protect wealth. With proven expertise and genuine care, Aprio serves individuals and businesses, from promising startups to market leaders alike.
