

Business Technology Consulting Services

CREATE A CULTURE OF ACCOUNTABILITY THAT WILL TRANSFORM THE WAY YOU MANAGE ENTERPRISE COMPLEXITY, COST AND COMPLIANCE

Small to mid-size business leaders face enterprise-wide struggles managing complexity, cost and compliance challenges as they scale their organizations. Aprio's Business Technology Consulting Services team focuses on moving clients up the maturity model by creating foundational infrastructures that are designed to streamline management and support profitable growth.

With a focus on companies with revenues \$10+ million, Aprio's advisors offer strategic and tactical solutions that enable clients to achieve significant returns on their technology investments by improving existing systems and designing and implementing new solutions.

We ensure technology investments support business goals and strategies by providing guidance across a company's entire technology landscape. Our team focuses on areas such as evaluating and executing cloud, hosting and data center strategies, migrations, technology budgeting & forecasting, IT governance, risk assessments and compliance.

Services that advance the maturity of the enterprise

Evaluation and Simplification

Any data or application migration requires defined strategies, project planning and success metrics to ensure efficient and seamless execution. Aprio's advisors work with you to design solutions that simplify processes and manage costs.

Cost Transparency

Technology vendors "tell you what you need." We serve as an objective advisor to provide you a comprehensive catalog of IT services, infrastructure and licenses segmented by department. This enables you to decide what you need while streamlining management, reporting and budgeting as you scale.

Is your technology designed to simplify management and support profitable growth? Technology investments should support business goals across the enterprise.

Compliance Readiness

Is your organization compliance ready? From our experience, 50-70 percent of the clients we engage think they are ready when in reality they aren't. Discovering gaps during attestation services is a costly way to find out that you aren't ready. Let Aprio provide a cost-effective compliance readiness solution for your business.

Technology Innovation

Aprio's Business Technology Consulting Services team can help your organization foster continuous improvement. For companies seeking to streamline their current infrastructures, our advisors provide the assessment and manager training services that support cost savings and create efficiencies.

About Aprio

Since 1952, clients throughout the U.S. and across more than 40 countries have trusted Aprio for guidance on how to achieve what's next. As a premier, CPA-led professional services firm, Aprio delivers advisory, assurance, tax, cloud accounting and private client services to build value, drive growth, manage risk and protect wealth. With proven expertise and genuine care, Aprio serves individuals and businesses, from promising startups to market leaders alike.
