

Payroll Services

YOUR ONE-STOP PAYROLL, BENEFITS AND TAX SERVICES PARTNER

U.S. businesses annually amass about \$7 billion in IRS civil penalties due to incorrect reporting of business income and employee values, according to Bloomberg BNA.

We apply our tax and accounting expertise to ensure that things are done right. As an Aprio Payroll Services client, you'll enjoy the peace of mind that comes from knowing your CPA firm is handling the complexities of payroll and benefits administration to avoid tax season surprises.

A partner you can count on

Personalized customer service from accounting professionals that know your business delivers:

- Continuity and faster response times when questions arise
- Filing accuracy that reduces costly clean up fees and penalties
- The freedom to focus on strategic activities

Clients avoid the complexities of payroll management, freeing up staff to focus on strategic activities that will grow the business.

World-class technology and secure access

Aprio Payroll Services runs on a cloud-based, single-system platform that provides you with real-time accuracy and complete control over your workforce data. A single data profile for each employee serves as the source for all transactions from application to termination and everything in between. We provide the same functions as larger providers, but we back our technology with customer service delivered by accounting professionals, not high-turnover account reps and call center staff.

We make security job one! Our internal controls and processes adhere to the highest level of professional standards, and we use cutting-edge authentication technology to ensure your confidential data is protected from data breaches.

Save time, reduce risk and ensure compliance
